

November 11, 2020

- Group discussion about interface
 - Decided to use one screen per channel instead of one large screen for all three
 - Will use two encoders per channel
- Rice will update the website to be more descriptive of design and match proposal
- Group discussion on control boards
 - Several options for boards, further evaluation of options need to be considered
 - Final board choices to be made later
- Proposal looks good. Team will sign and submit as final proposal.
