

October 23, 2020

- Team shared trade studies with one another and reviewed what looked good and what could be improved.
- Talked through final steps to complete trade studies and how to implement into draft proposal.
 - Al will type up constraints and user interface trade study sections
 - Chase will type up constraints, budget, and timeline sections
 - Alex will type up product description and power stage trade study
 - Rice will type up microcontroller trade study and combine all sections to create draft proposal
- Group agreed that each section of the proposal will be stored in Auburn Box shared Senior Design folder
- Review and update Gantt chart task and dates
- Final proposal will be stored on Vupiter website
- Team will meet next Wednesday but try to communicate through week on progress
